

This list is an extract of some of the projects where construction companies all over the world has found Ventiflex ducting to be the safest way of providing fresh air into the face. The actual list is much longer, also taking into account that more than 50% of all tunnels being excavated, are less than 500m.

Project	Contractor	Length	Year
TUNNEL EYHOLZ, Switzerland	Jäger Bau GmbH	8.000M	2009-11
BRISBANE AIRPORT TUNNEL, Australia	Thiess Holland	13.000M	2009-12
WATTKOPF TUNNEL, Germany	ARGE	1.700M	2009
